

Collapsible aluminium Dock shelters

The **InterSeal™** S 420 and S 420e provide collapsible aluminium shelters designed to protect against draughts, rain and wind.

They ensure perfect sealing between lorry and building and protect against energy loss and possible damage to the goods.

The built in rain water channel deflects water from the roof to the outside of the shelter.

There are no visible screws on the front side of the shelter and both systems are universally usable.

InterSeal	S 420		S 420e
Width (NB)	3250, 3450		3450
Height (NH)	3200, 3400, 3600		3400
